Soda Inventory Page

Primary Challenge

Create a page to manage the soda inventory. Wire it up to display the sodas currently in inventory as well as to add sodas to the inventory.

Bonus Challenge

Add database-filled dropdowns for the soda name and slot in your form. Add a menu link to the page in the navigation system. Ensure that only people in the Admin role can access the page. If a person does not have access to the role, hide the link.

"Practice makes the master."
