#### **Custom Workspace**

- In Expert Mode of Photoshop Element, click on More > Custom Workspace. If you don't see Custom Workspace, first click on Basic Workspace
- Right click (Mac: Ctrl click) on all other panels that became docked and choose Close.

#### **Rulers & Documents**

- In the Menu Bar, choose View and uncheck Rulers.
- Keep documents docked.

## Layers Panel Options

- In the Layers panel, click on the flyout menu and choose Panel Options.
- In the dialog box, set the Thumbnail Size to Large, the Thumbnail Contents to Layer Bounds, and uncheck Use Default Masks on Fill Layers. Click OK.

## Troubleshooting Wonky Tools

- In the Tool Options, click on the dropdown menu and choose Reset Tool.
- If that doesn't work, try restarting the program and/or restarting your computer.

## Tool Options

- Click on the Tool Options icon of any tool.
- In Tool Options, click on the dropdown menu and uncheck Auto Show Tool Options.

## Move Tool

- Get the Move tool.
- In the Tool Options, uncheck Auto Select Layer and Show Bounding Box.

## Preferences

- Press Ctrl K (Mac: Cmd K) to get Preferences.
- In the dialog box, in the General tab uncheck Disable Smart Objects.
