SCORING OF MY LEADERSHIP PERSPECTIVES (CLUSTERS)

A *leadership perspective* is the viewpoint from which a leader sees life, analyses problems, negotiates issues, makes decisions, and interacts with others. Just as a globe appears different from varying vantage points, so circumstances appear different from varying leadership perspectives.

Each individual has one of the seven leadership perspectives. A wise leader will learn to work with the strengths and weaknesses of each perspective, greatly reducing difficulties in relationships.

1. Visionary (Thinker and Dreamer)

Is committed to growth, looks beyond problems to causes, and develops precise solutions for success.

2. Teacher

Imparts wisdom, maturity, and skill to others; validates direction; and ensures completeness

3. Server

Sees and meets others' practical needs, frees them to accomplish their goals, and invests time and energy in their success.

4. Organizer

Visualizes final results and directs resources for the successful completion of goals.

5. Mediator

Is deeply loyal and compassionate, analysing the benefits and problems of a given direction.

6. Idealist

Seeks excellence in thought, word, and deed; identifies problems as they arise and speaks truth boldly.

7. Provider

Is resourceful, prudent, and thrifty, constantly ensuring the best use of all available resources.
