

Toddler Warm Up

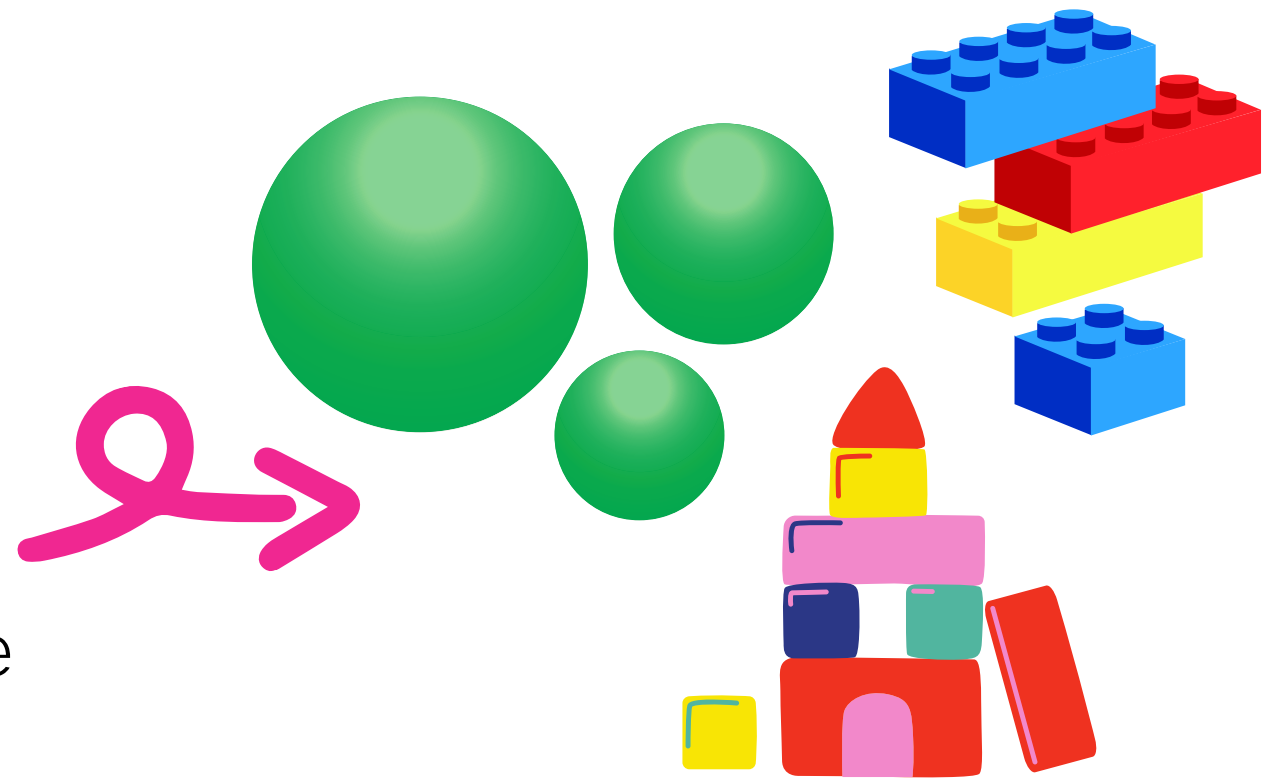

Developmental Overview – Thinking Development

I Spy with my Little Eye!

You will need:

Tub/tray

Household objects which are different shapes, colours and sizes
(eg – 3 red things, 3 green things, some colourful cookie cutters, shapes)

Method:

1. First we are going to play I spy!
2. Use different body parts to play I spy – “I spy with my little eye – a little nose. Where is it? There it is!”
3. Then you can do the same with yourself – “I spy with my little eye mommy’s nose!”
4. Allow your little one to point to the different body parts
5. Now bring out your objects to play with
6. Allow your toddler to explore and feel the different objects
7. Ask him/her if s/he can count with you “how many blocks do we have?” and count together
8. You can also group the same colour together – “Can you put all the green things together?” and the same sizes “Can you find the biggest block?”
9. You can now play I spy with the different objects – “I spy with my little eye, a green block!”

Activity Tip:

Talk Lots about colours, shapes and sizes!
