

The Core 4

There are so many rules! Isn't there an easier way to remember what I should and shouldn't do? There are many qualities that help students interact with others, but many can be boiled down into the Core 4: Responsibility, Respect, Safety and Caring.

With the help of his friends Robbie, Raven, Sondra and Cato, Mister Brown uses stories and examples to show elementary school students how to live in a way that incorporates the Core 4.

Topics include:

- What is responsibility?
- How can I be responsible in my classroom?
- What is respect?
- How can I respect the people, rules and things around me?
- What is safety?
- How do rules help keep me safe?
- What is caring?
- How can I choose to care about those around me?

Through these videos, Mister Brown and his friends will help students to be mindful of the Core 4!
