Happy New Year!

Welcome back,

Happy New Year! My new year's resolution is to do more camping than we did in 2023. We rescued a young Olde English Bulldog and soon discovered she had anxiety issues and was never socialized with people or other dogs. On top of that, she doesn't like anything with wheels

including bicycles, golf carts, or cars. Needless to say she did not do well at campgrounds. Last month we sent her to a professional trainer for three weeks. She is much better now, but still a work in progress. My goal this year is to expose her all the activity at campgrounds and continue working where her training left off. She is a good traveler so that is one positive thing to start with.

Enjoy the newsletter, and as always if you have family or friends who like RVs and the RV lifestyle please share with them too.

Mark

How Does My RV Work?

Funny you should ask. At RV Education 101[®] we spent the past two plus decades teaching RV owners and RV enthusiasts how to use and maintain their RVs properly and safely.

The Original Equal-i-zer[®] Sway Control Hitch

**How To Measure your
Trailer's Weight Distribution
Fast & Easy**

The folks at Equalizer Hitch asked me if I would like to review and test their On Target Towing Tool. The primary function of the tool is to make measuring your weight distribution fast and easy. After a couple quick measurements, you know exactly what your weight distribution percentage is, so you can make any adjustments necessary for safer towing. For more information on the towing tool.
