

Superduo Beaded Box

This beaded box is made predominantly from Superduos. I've included a decorative Rivoli, bezelled with seed beads, on the lid. The structure is simple to create and very sturdy. I'll be sharing some tips and my colourways with you on the next page.

The finished box measures 2" (5cm) high and just over 2" (5cm) wide. You will be working in Peyote stitch. This project is suitable for all levels.
