Clinical Decision Pathway: An Example

then to flag case for ongoing monitoring and to consult with a colleague/supervisor.

If no improvement by 6th session, then to discuss seek consultation with a clinical supervisor.

If no improvement by 4th session, then to discuss lack of progress with client, and consider a different approach/dose level/inviting significant others to a session.

If nil progress between 8-10th session, then consider referring to someone more suitable.

Clinical Decision Pathway
