

## My Movement Menu

What kind of movement is right for you?

A movement menu is a list of inspiring movement options for different types of energy levels, time restraints and fitness. When you have an inspiring menu of options for movement ready and easily in view (like on your refrigerator), you are far more likely to get moving.

So, what type of movement does your body want to do today? Let it come from your body and not from your head. The movement should be pleasurable and remember – all movement counts! Even if it's just 5 minutes. Have fun!

What movement would you like to add to this list? Think outside the box.

What movement did you love to do as a kid? What movement would be fun to do with others?  
What is something that you've never tried that you've always wanted to try?

This is an invitation to play and have a pleasurable experience in your body while contributing to your health and aliveness.
