

1. How easy was it to access pornography when you were a teen?
2. What sorts of challenges do kids face today because of technology? How is it different from your own childhood?
3. “It is not an overstatement to say that in today’s world, porn has become the norm.” What is your first reaction when you read that statement? What fears well up as you think about raising your children in a world where “porn has become the norm”?
4. “While current research suggests there are many parents concerned about these topics, the same research also shows this concern doesn’t translate into action.” On a scale of 1-5, with 1 being “We never talk about appropriate use of technology” and 5 being “We consistently have family conversations about appropriate use of technology,” how would you rate your level of action on digital topics?
5. Ephesians 5:13 says, “But when anything is exposed by the light, it becomes visible.” Why is it important to keep technology use in the light?
6. Former lads’ magazine editor Martin Daubney came to this conclusion, “By talking to them, they stand a chance. If we stick our head in the sand, we are fooling only ourselves.” How prepared do you feel for having conversations about appropriate use of technology, including pornography?
7. 1 Peter 5:8, “stay alert! Watch out for your great enemy, the devil. He prowls around like a roaring lion, looking for someone to devour.” When Peter says, “stay alert!” What do you think he means? How does this relate to technology and your family? When Peter refers to the enemy as a lion, again, why is this an apt correlation to technology?
8. Take a look at the 3 Actions to Take in the Next 24 Hours and discuss how they could apply to your family.

**There are 3 specific actions you can take after watching this video. Can you do these in the next 24 hours?**

1. Read this blog post: [How to Talk to a 5-year-old About Pornography](#). In it, you will find practical examples of how parents have a conversation about what can be an awkward conversation.

2. Consider purchasing a book like [Good Pictures Bad Pictures](#) to help you facilitate the conversation about pornography. This book can be purchased at [protectyoungeyes.com/resources](http://protectyoungeyes.com/resources). Additionally, commit to having an open and frequent conversation with your children not just about why pornography is bad, but also explain why God's design for sex is amazing. [Luke Gilkerson's book, Having the Talk is an excellent place to begin](#). This book can be purchased at [protectyoungeyes.com/resources](http://protectyoungeyes.com/resources).
3. Purchase a filtering service that covers EVERY internet-ready device in your home. [Those that we recommend include Mobicip \(Android, Chromebooks\), Bark \(Instagram and Snapchat\), Forcefield \(Apple devices\), and Covenant Eyes \(for older teens and adults\)](#). Read about each and see which is right for you!

**GO! You can do this!**
