WELCOME NOTES

Thank you for purchasing this DTC online course and welcome!

The DTC Online school has been designed for self-paced learning. You have life-time access to the course you have purchased, so work at your own pace and in your own time. Each course is designed to act as a text book with written material that you read through before watching the accompanying videos, then refer back to both once you start practicing. This may not be the traditional online cake tutorial that you're used to but the DTC approach is all about efficiency and being as straight-forward as possible. There is no time to waste doing something you don't need to.

Please note that the video materials in this course are designed to compliment the written materials. While they are helpful, you will not be able to get the full learning benefit from the course if you use them alone.

Everything I have learnt and developed over the years is contained in the course and I am passionate about passing it onto you. However, it is your responsibility to exercise initiative and discipline and to practice, practice, practice!

If you have any questions along the way, refer to the FAQ section first as the answer will likely be there. If not, use the comment section to ask your question.
