User Guide: French Program for Self-Learners

1. Log into your [LLL French Academy account](#). All course material is hosted on a platform called Teachable. Use the username (email address) and password that you created when you joined.

2. Once you have signed in, click on any lesson or learning resource in the *Scope and Sequence* document to begin working on it. You will find the latest version of the document in the course curriculum. The lessons are in sequential order. You may choose to start at the beginning or jump from topic to topic.

3. Make sure you've signed up for LLL's newsletter, which is generally sent once a week. I always include a copy of the latest *Scope and Sequence*. [Click here to sign up for the newsletter](#) if you don't already receive it. It's a great way to stay on top of new resources that have been added to the program.

4. Everything that is listed and linked on the *Scope and Sequence* is included in your course. If you click on a link and you are asked to pay for the lesson, this means that you are not logged into your account. The only LLL resources that are not included in your course are my [French Daily Planner and Gratitude Journal](#) and my [Essential French Grammar Bookmark Notes](#).

5. If you have questions about course material, please contact me directly: *french@lovelearninglanguages.com*

6. If you have trouble logging in or other technical questions, please contact the help team at Teachable. They are very quick to reply: *support@teachable.com*

    In your email to Teachable, please include the following information:

    - School Name: Love Learning Languages French Academy
    - URL: https://love-learning-languages1.teachable.com/
    - Your full name
    - The email address you used to create the account
