

Precious Jewels Beaded Box – Materials List

Please view this list as a guide. You should also watch the video which explains what choices you can make in order to fit your personal budget and colour scheme.

So, I recommend that you print out a copy of this, and keep it by you as you watch the video, making notes here. Then, you can decide what you wish to purchase, or what you already have in your stash.

35g size 11 Delicas in your main colour (A) ...Opq pear luster (DB1561)

4g size 11 Delicas in colour 1 to complement your jewels (B) ...Opq carnation pink (DB1371)

6g size 11 Delicas in colour 2 to complement your jewels (C) ...silver lined crystal (DB41)

4g size 11 Delicas in colour 3 to complement your jewels (D) ...Opq mauve luster (DB265)

Note: you can just use 50g of delicas in your main colour if you wish to omit the pattern on the box sides. If you are using different colours to me, begin by selecting the colours of your Preciosa jewels, and take that as a lead for choosing your Delica colours

25x Preciosa 4mm bicone in light rose AB2x
9x Preciosa 4mm round crystal bead in deep tanzanite AB
6x Preciosa 15x8mm pear pearl in cream rose

Note: These Preciosa beads all came from a special collection box, which you can purchase from this link: <https://www.thestorytellingjeweller.com/preorder-preciosa-crystalpearl-box/ref/beadflowers/?campaign=PreciosaCrystalBox> The box I used is the 'Romantic' choice.

Alternatively, if you wish to buy the beads individually, you can do so. You could save money by purchasing bead packs, instead of all the individual beads. So, this might reduce the variety of colours you are using, but it will still work well. If you wish to do that, you can use this link: <https://www.thestorytellingjeweller.com/beads-kits/ref/beadflowers/?campaign=Beads> Below is a summary of the total bead types and quantities to make life easier for you!

1x Preciosa 16mm Rivoli
16x Preciosa 8mm Rivolis OR Chatons
6x Preciosa 8mm pearls
6x Preciosa 10mm Rivolis OR Chatons
84x Preciosa 4mm bicones OR 4mm round crystal beads
6x Preciosa 15x8mm pear pearl

(Note: you can use Rivolis and Chatons interchangeably for this project. So, you may want to use a mix, or you may want to pick one or other type. The same applies to the 4mm bicones and 4mm round crystal beads)

You also have the option of using Rivolis, Chatons, pearls or crystals from your own stash, which could be from other suppliers/brands. You will need the 16mm size for the box lid as this is integral to the structure. If you are using the bicones, then you will need 4mm size – again these are part of the structure, so size matters. You will also definitely need the pear pearls. But for the other Chatons or Rivolis, you can use slightly different sizes if you wish. I recommend you don't go too big, but if, for example, you only have 10mm or 12mm Rivolis, it would be fine to just use those and not worry about mixing different sizes or using the exact same sizes and combinations as I did.
