LESSON 1: PROCEDURE OF THE SPROOCHENTEST

The Sproochentest consists of 2 exams: the **Oral Language Test** and the **Listening Comprehension Test**. In this Lesson you will learn about the contents of the Sproochentest, how it is administered and FAQ so that you have a clear picture of what to expect on the day you take the test.

Procedure

The Oral Language Test consists of two parts, Topics and Pictures:

You will choose one of the 3 pictures and describe what you see. You have a maximum of 5 minutes to talk.

Time

The complete Oral Test lasts approximately ten to twelve minutes.

2. Listening Comprehension Test

Level required

The level of the listening comprehension test corresponds to **level B1** of the Common European Framework of Reference for Languages (CEFR) for listening comprehension:

‘The candidate can understand the main points of clear standard speech on familiar matters regularly encountered in work, school, leisure, etc. The candidate can understand the main points of many radio or TV programmes on current topics or matters of personal or professional interest when the delivery is relatively slow and clear.’

Content and procedure

The listening comprehension test is in three parts. You will hear

- 1 a radio news item
- 2 an everyday conversation between two people
- 3 a discussion or presentation of a specific subject

Each part consists of an audio recording and recorded questions. Each recording is played twice. After each recording, you answer the multiple-choice questions by indicating your answer on an answer sheet.

The test lasts about 25 minutes.

Please note: Preparation for this part of the test is not covered within this course - this course is intended for students with A2 language level.

Assessment

Candidates' answer sheets are marked by two evaluators using a marking grid.

3. Passing criteria

You will pass the Sproochentest if you obtain **a minimum score of 50%** on the Oral Language Test. An insufficient score on the Oral Language Test can be **compensated** by your results on the Listening Comprehension Test.
