HOLD

Effective today, visits are on hold due to Mom's ongoing questioning (and seeming suspiciousness) toward Monitor, Monitor's qualification, professional integrity and her ability to do her job as Monitor.

Additionally, Mom appears to struggle with understanding Monitor's role as being neutral, even after Monitor has explained this on several occasions.

Monitor notes that this is the second time this family has been placed on Hold due to Mom's interactions with Monitor.

If the family chooses to return to this Monitor, Mom will need to complete another Orientation. Mom will be responsible for paying the \$40 Interview/ Orientation fee.

If this is not acceptable to Parents, Monitor suggests that Parents find another Monitor. Parents can review the list of providers in their Court documents.

Monitor request that Parents notify Monitor of their decision as soon as possible. The current every-other-week spot will not be held without payment.
