

Snowglobe Tumbler Supply List

Hello! There are many different ways to make a snowglobe tumbler. Below, I'm providing a list of the supplies I use to make my snowglobe tumblers – with a vegetable glycerin and water liquid mixture. I've included links to the items I purchase and use but feel free to shop around and choose alternatives.

As a special bonus for purchasing this course, I've teamed up with [Let Me Bling](#) to offer you a 15% discount on double wall tumblers and glitter. You can shop at www.letmebling.com and use code: **boobear15**. You can use the code on your first purchase, as well as any future purchases. Yay! 😊 Follow her on IG: @letmebling

**This list contains Amazon affiliate links. Using the links does not result in an additional cost to you, but I may earn a small commission on your purchase through the link. Everything I've linked is something I've used and/or continue to use. I would not recommend anything that I did not love or trust. However, please keep in mind that everyone has their own preferences and experiences with a product.*

- Double Wall Acrylic Tumbler (I use a mix of the ones listed below)
 - [Let Me Bling double wall tumblers](#) (get your tumblers and glitter here for 15% off by using code: **boobear15**)
 - [Maars Acrylic Tumblers from Amazon](#)
 - If you'd like a Starbucks brand tumbler, you can find them at a Starbucks store
- Vegetable Glycerin
 - Raw+Rare Vegetable Glycerin from Amazon: [32 oz bottle](#) or [1 gallon bottle](#)
 - [Doctors Scientific Organica Vegetable Glycerin from Amazon](#)
- Purified or distilled water - I use Kirkland brand drinking water from Costco
- [Condiment squeeze bottle](#) or [measuring cups](#)
- Glitter (preferably chunky or chunky mixes)
 - [Let Me Bling glitter](#) (get your tumblers and glitter here for 15% off by using code: **boobear15**)
 - I also use a lot of the [Recollections](#) chunky glitter mixes from Michael's
- A drill or hot-fix rhinestone applicator to make the hole
 - I use this [hot-fix rhinestone applicator from Amazon](#) with the 34ss (or 7mm) concave tip
- [UV nail light](#) or [UV lamp with clamp](#) (I use this lamp with clamp)
- [UV Resin](#)
- [Cabinet door bumpers](#) (12.7mm width x 3.5mm height)
 - Some crafters use glue dots, hot glue sticks, or gorilla tape but these door bumpers have worked the best for me in avoiding leaks
- [Weeding Tool](#)
- Rubbing Alcohol
- Popsicle sticks or other type of mixing sticks
- Paper towels

The items below are not necessary but optional and helpful:

- [Disposable gloves](#)
- [Spray bottle for rubbing alcohol](#)
- [Silicone cups and mixing sticks](#)
- [Gorilla glue dots](#)

Click or scan the QR code to the right for a link to my [Amazon Storefront](#) for a list of many of the supplies I use for crafting and my small business.
