

Introducing the Equine Distance Learning Team!

We would like to introduce you to our team here at Equine Distance Learning so that you can get to know us and see what we all do. Please feel free to contact us at any stage throughout the course with any questions you may have. We are always here to help and we also love to hear of the progress you are making!

Sarah Tame: Sarah is the founder of Equine Distance Learning and, as your tutor, is responsible for writing and overseeing the academic side of the course. Sarah has considerable knowledge of all things Equine. She is an experienced instructor, having taught for over 20 years a variety of pupils ranging from young pony club members to retired hobby riders; from novice riders up to more serious competitors. Sarah has trained numerous students up to Pony Club A test, BHS Stage IV level and towards BE, BS and BD competitions. She has many longstanding clients, which is a reflection of her excellent coaching skills.

Sarah competes herself in BE, BS and BD events and also has an interest in Sports Psychology, achieving her NLP Master Practitioner Certificate in Sport in 2010. Sarah holds an FdSc in Equine Studies and has 8 year's experience of lecturing at an Equestrian College where she has acquired valuable skills in writing courses, assessments and in helping students to achieve. Her City and Guilds Level 5 Certificate in Further Education also means Sarah can provide us with high quality teaching materials.

Sarah grew up with horses. Her grandfather owned a Riding School, her mother was a successful show-jumper, and Pony Club for Sarah was the start of her equestrian career. Sarah achieved her Pony Club A test at the age of 19 and then went on to become British Horse Society Stage 4 Senior Coach (BHSII).

More recently Sarah has completed a MSc in Equine Science, to add more academic rigour to the courses that are written for Equine Distance Learning.

Sarah's extensive experience in the equine industry along with her experience as a lecturer, her BHS and academic qualifications combine to produce online courses that deliver up to date information and effective learning environments for all.
