

Morning GREETING

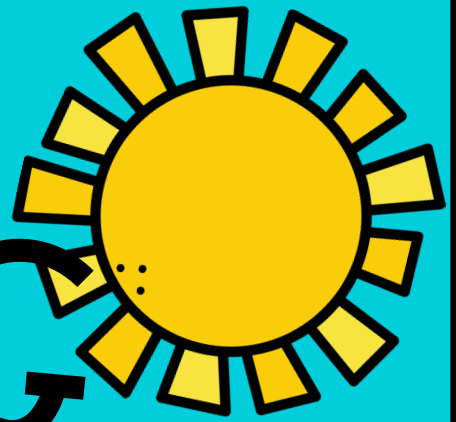

theCOREcoaches

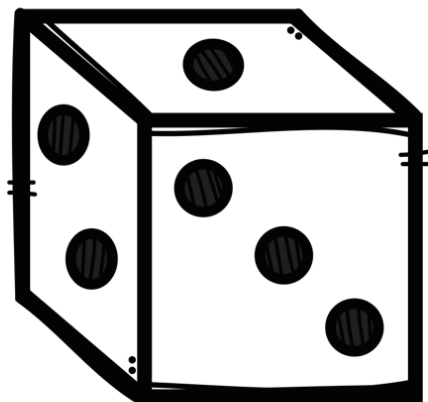

Greetings help students build relationships with each other. When students greet each other by name in a friendly and cheerful way, they feel like, "it matters that I came."

Morning GREETING

DICE ROLL

Students sit in a circle. The first student rolls the dice, counts that number of students clockwise around the circle, then greets that student by name. The greeted student rolls the dice. Continue until all students have been greeted.

Terms of Use

Thank you for downloading our resource. This resource is one license for your individual classroom use and should not be redistributed, repackaged, or resold. This includes copying, printing, or digitally sharing for/with other teachers. This product may not be uploaded to the internet or stored in a public retrieval system outside the scope of your classroom. If you would like to share, please purchase additional licenses at a discounted price, or share the web link to our TPT store. You may blog/post about using this resource in your classroom when you include a link back to our TPT store or blog. We hope you find this resource useful and beneficial for your students.

Thanks,
