

**Family & Children's Counseling Services, Inc. presents:**

**PROVIDER TRAINING**

**Client Orientation  
for Supervised  
Visitation Provider**

**Owner or  
Supervisor**

**[www.HealPlayLove.org](http://www.HealPlayLove.org)**

Hi and welcome to the Client Orientation training for Providers of Professional Supervised Visitation.

This course is not for clients. Clients should find the correct Parent and Guardian Orientation on our training home page.

This course is for providers of Supervised Visitation services. This course will help you see how to do an Orientation for your new Supervised Visitation clients. This course was originally designed for - and still used by - our clients at FCCS.

This course refers to, but does NOT include, any forms (such as the Agreement, Guidelines, etc.). Those forms can be found in our Owner version of the Supervised Visitation Monitor training course.

This course is offered to those who are currently in the Supervised Visitation field or who will be entering this field very soon. This course is only meant to give you ideas on what to cover during your Orientation.

Welcome and enjoy the course!

Melinda
