Secrets of Terrific Type

Lesson 02-04: Leading Challenge

Are you ready to up your game? Now that you've gotten comfortable with Leading, it's time to challenge you to step out on your own!

So, now that you've created a journal card cluster with me, I'd love to see you use Leading to create something yourself.

I want to leave these challenges as open as possible because I want you to have the creative freedom to make what you WANT to create.

Let what you learned about Leading inspire you.

Feel free to make another journal card or feel free to create something totally different. Whatever you create, use Leading to enhance the design. That's the only criteria for this challenge.

Make sure to have fun with this. This class is self-paced so there's no rush to hurry to the next lesson. Spend some time with Leading before you move on so that what you've learned will stick with you.

Leading Ideas

Needing some ideas to jumpstart your Leading Challenge?

Here are a few things you could try:

1. Create your own Journal Card Cluster and use it in a project.
2. Create a scrapbook page and add some journaling. Adjust the leading of the journaling so that the type looks its best.
3. Create a thank you card and on the inside of the card, use Leading to make your personal message look great.
4. Create a scrapbook page and use a journal card for your journaling. Make sure to adjust the Leading so the text fits the journal card.
