Tutorial Summary

If you'd like to run effective, engaging and interesting music-based exercise groups for older adults, then this tutorial is for you. Based on many years working in aged care, Winifred shares everything you need to know about music-based exercise groups with older adults. Winifred presents the most common diagnoses you'll find in aged care/aged rehabilitation and their resulting physical symptoms. She also discusses and demonstrates a wide range of musical techniques and repertoire to match the preferences of the adult participants and their movement needs. The tutorial closes by having a look at what equipment and instruments can be used for specific physical movements. Winifred has also included extra resources for you to develop your skills further and the tutorial closes with a summary and 3 optional bonus content activities which will extend your learning and earn you extra CMTE/CPD credits.

Submission for CMTE/CPD Credit

When you finish watching the online tutorial you will automatically be emailed a certificate of completion to verify that you have successfully completed the tutorial. You will need to watch ALL the video's to receive your certificate. You can submit this to your CBMT/CPD organization as a professional development activity. For MT-BC's in the US and Canada you can submit your certificate in the workshops/independent learning category as an 'other continuing education opportunity'.
