

# School Ready with Teddy

## Supporting you and your child to prepare for Primary School

School Ready with Teddy is a unique programme designed and created by Early Years Teachers and Mums to develop the skills your child needs before starting school. Your child will be working on the following skills:

- ★ listening and following instructions
  - ★ taking turns
  - ★ communicating needs
  - ★ making friends
- ★ developing independence
  - ★ managing change
- ★ name recognition and writing

School Ready with Teddy uses a problem solving approach to give your child the tools to manage social situations and communicate their needs in a way that will develop confidence and help them to thrive in school.

If you would like to find out more about preparing for school you can find us at:
