smile at introduction

eye contact

age-appropriate closeness, touch, engagement

familiarity, body language appears comfortable

Other: _____

Session stopped for re-direction: _____ Yes No

Details of interrupted visit are provided in chronological, if applicable.

Chronological details of visit: Dad and girls arrived at 10:51 am. Girls were happy as they transitioned to Monitor. Mom arrived at 11:00 am. Mom brought a lunch cooler and bags of items. All went to a picnic table. Mom got grapes, crackers, sandwiches, yogurt, oranges and tea from her bag. All moved to a bench. Both girls were thankful for the food Mom brought. All were excited to talk about Star's school carnival and Ocean's trip to Washington, the guinea pig, Mom's new job, Spiderman, and why Ocean hates boys.

All walked over to the play area and had fun playing on structures. All talked about a boy named Josh and Ocean's weight. Mom got angry and told Star not to take off her shoes. Star was irritated and told Mom she's too old to climb the rock wall. Star could not climb the rock wall. Mom was sorry for her and tried to help her. Star was offended by Mom's help and yelled, "Stop- don't touch me!" Star climbed the wall. Mom climbed the wall.

Star rolled around in the bark and said "Ocean pushed me." Ocean ate more candy to irritate Mom. Mom told her to stop. Mom sang to distract from the issue. Star threw bark at Mom to show her she wouldn't listen to Mom. Ocean called a little boy evil for throwing a ball at her. Mom was embarrassed and told her to stop. Mom lovingly touched Ocean's face. Ocean said Mom has an addiction to popping zits. Star played with another child (the 'evil' one). Ocean offered Mom a granola bar out of love and concern for Mom's wellbeing. Mom and Ocean talked about Star's facial. Mom obviously loves Ocean. Ocean said, "That is too close for comfort" and pushed Mom away while laughing. Mom thought it was funny and wanted extra affection.

Star took a drink of Mom's Rockstar drink. Mom did not want to share. Star thought Mom should share. Mom told her to listen. Mom and Star showed affection toward one another. Ocean and Star liked Mom touching them. Star poked Ocean's sandwich. Mom got irritated with both of them. Star rolled her eyes and told Mom she poked the sandwich because Mom tickled her. Star argued with Mom about poking the sandwich. Star wanted reassurance from Mom. Mom said she did not want to play and that Star would have a time out now if she was at home. Monitor stated to Mom that Star could take a time out. (She did not.) Ocean took Mom's phone and said she was taking a selfie. Mom asked for the phone back. All talked about snowballs and Star thought it was hilarious. Mom was distracted. Star was angry

with Mom. Mom was very sad about Star's anger. Mom talked to the other child that was playing at the park. Star became jealous.

Mom tickled Star and hugged her. Ocean said, "Mom, that doesn't look right." Ocean ate more candy. Mom hit Star's rear. Star said, "You touched my butt." Mom asked girls if they would walk to the bathroom for her. Mom said she has social anxiety. Ocean felt hurt by that comment. Mom and Ocean tickled each other; play fighting. Monitor asked Ocean not laugh with candy in her mouth due to choking hazard. All talked about hand signs that mean, "gang gang" and Star said "it means the f word." Mom was not upset by the comment and asked girls to play on monkey bars. Star lay down on the ground and said she fell. Mom tickled Star. Star was startled. Mom thought Star needs better hygiene. Star said yes but she used conditioner twice. Ocean asked Mom is she is ticklish and tickled Mom. Star asked Mom to hold her feet so she could do sit ups.

Mom told girls to help carry bags. Star said, "No." Mom believes the children need more discipline at home. Ocean and Star picked up bags. All walked to Mom's car. Star told Mom to do the titanic pose. Mom stood behind Star. All were so happy, they danced. Ocean got bored and asked, "Can we be done with this? Not you, but dancing". Mom asked for a hug. Each girl hugged Mom. Mom kissed each girl and said, "I love you." The visit was good.

Post visit and/or exchange, if applicable: ___ Dad arrived at 1:10. Monitor walked girls to Dad's car. Girls were happy to see Dad and Lisa.
