

Java Programming AP Edition

UFRQ Previous AP Exam FRQ

FRQ EXAM

ERIC Y. CHOU, PH.D.

IEEE SENIOR MEMBER

If you are not an AP Exam Taker

It is still meaningful for you to practice these exams to make sure you know well about **the Java Programming Essentials** and **Java Object-Oriented Programming** Topics.

Exam Format

Item	Format
Time Allowed	1 hour and 30 mins
Number of Questions	4 (maximum 9 points each)
Percentage of Total Grades	50 (9 point for each question. Totally 36 points. It will be curved to a composite score out of 40)

How to take this exam?

1. You must have a stop watch. Reset the stop watch and set it ready first.
2. Please download the Free Response Question from the attachment section.
3. Print the FRQ Questions and have No. 2 pencils, Eraser.
4. Reserve 1 hour and 30 mins for this exam. Get started.
5. If you need to break in the middle, stop the stop watch. Resume the stop watch when you are back. But you are suggested not to take any break as the real FRQ exam.
6. When the time is up, stop doing anything.
7. Check you own points or have some one who can grade your test based on the rubric provided by college board.
8. Keep track of your scores over the different past exam years. See which part you need to improve.
9. If sample program is available, look at it.

FRQ Exam:

Have fun!
