

Blind Defense Expectations

- We expect to lose money in the blinds, meaning playing from the blinds is **-EV**.
 - If we fold 100% of hands in the SB and BB, our win rate would be:
 - **SB:** -50bb/100
 - **BB:** -100bb/100
- Our goal is to minimize our losses because it's nearly impossible to have a positive win rate from the blinds.
 - A very good win rate from the blinds is:

▪ BB: -25 to -35bb/100	BB	-\$1,107.97	42,868	9,460 (22.07%)	-29.43
▪ SB: -10 to -15bb/100	SB	-\$352.13	42,505	4,483 (10.55%)	-7.32
