

Windows Server File Shares

Configure File Screens

Objectives:

At the end of this episode, I will be able to:

1. Configure file screens.

Key Points:

What is the purpose of a file screen?

Which tool includes the File Screening Management feature?

What is the purpose of file screen templates?

What is the purpose of file screen groups?

List and discuss the steps for creating a file screen.

What is the difference between active and passive file screening?
