

# Hyper-V Containers

## Configure Container Networking

### Objectives:

At the end of this episode, I will be able to:

1. Configure container networking.

### Key Points:

Which command can you run from within a container to determine its current IP configuration?

Explain the usage of the Get-NetAdapter and Set-NetAdapter PowerShell cmdlets.

What is the purpose of the Azure virtual network container network interface (CNI) plug-in?
