

Active Directory Domain Services (AD DS) Domain Controllers

Configure a RODC

Objectives:

At the end of this episode, I will be able to:

1. Demonstrate configuring a RODC.

Key Points:

Which tool would you use to prepopulate the password for a user on a(n) RODC?

List and discuss the two ways to prepopulate the password for a user on a(n) RODC.

Discuss the process for adding the user to the Allowed RODC Password Replication Policy group on the writable domain controller.

Discuss the process for editing the RODC's Properties and adding the user to the Password Replication Policy tab .
