

Azure Windows Server Virtual Machines

Configure Azure VM Continuous Delivery

Objectives:

At the end of this episode, I will be able to:

1. Configure continuous delivery for an Azure VM.

Key Points:

Which blade within an Azure VM should you access to configure continuous delivery?

What must you first create to configure continuous delivery?

List and discuss the steps to create an Azure Dev Ops organization.

Where should you run the Registration script for joining the Azure Dev Ops Deployment group?

List and discuss the steps for configuring continuous delivery for an Azure VM.

Compare and contrast the three deployment strategies for Azure Continuous Delivery.
