

# Windows Server and Workload Management Using Azure

## Assign Azure Policy Guest Configuration

### Objectives:

At the end of this episode, I will be able to:

1. Assign Azure Policy Guest Configuration.

### Key Points:

What is the Azure Policy?

What is needed for the VMs and servers to be monitored?

What is Azure Policy Guest Configuration?

What is the difference between a policy and an initiative?

What about the name change announcement from Microsoft?

List and discuss the steps for Azure Guest Policy Configuration.

Discuss the blades available in Azure Policy.
