

## Introduction to 3 Bedroom Lowset House

Hello and welcome.

In this single house story course, you'll be learning how to insert your borders, inserting your slab and your wall frames.

You'll also be learning how to insert all your trusses and editing your trusses to pass.

You'll be learning how to insert your openings, that's windows and doors, and you'll also be learning how to cut your frames to the correct manageable lengths and inserting your braces

And finally we'll be learning how to dimension all your wall frames and trusses and setting up all your reports.

If you have any questions, please feel free to put them in the comment section.

Kind regards,

Kevin Broederlow
