SUCCESS STORIES

"This was so far the best resume feedback I've received. Nelson is incredibly insightful and detailed in his critiques and he pointed out flaws in my resume I've never noticed before, albeit having gone to Columbia University's own Center for Career Education multiple times for resume revision. I think anyone who is looking to significantly improve their resume and highlight their abilities in the best way possible would benefit and learn a lot from using this service. 10/10. Recommend!"

– ALICE NIU, STUDENT AT COLUMBIA UNIVERSITY, FORBES 30 UNDER 30 SCHOLAR

"Nelson is a complete delight! He went through my entire resume and help me make effective changes. He also answered some challenging questions about applying that other professionals were unable to answer. Nelson told me about other document I could add to my resume that would increase my chances for an interview. Speaking to Nelson has helped me regain my confidence. I highly recommend anyone struggling to find a job to both connect and contact Nelson."

– ASHLEY SILVA, MARKETING GRADUATE FROM CALIFORNIA STATE UNIVERSITY, DOMINGUEZ HILLS

"I'd like to thank Nelson for providing me with a reliable resume makeover. Having previously readjusted both my resume countless times, I was never too sure whether it was the best way to do it. However, Nelson's professional experiences and proven success has provided me with tailored guidance on how to develop a profile which truly reflects my full sets of skills and achievements."
