## \*\*\* A note about the Pre-launch (until 30 September 2015)

This course is currently in Pre-launch. This means that it is in an almost - but not quite - complete state. In software development terms it would be called BETA. In return for the huge discount you received when joined up, you will be invited to give some feedback to help in the final course content, functionality and presentation. This is totally optional but would be greatly appreciated and will help make the finished product the best it can be.

While this course is in Pre-launch, lessons will be released every 2-3 days. This will enable me to fix any bugs, make improvements and act on feedback from the first set of Beta testers who are currently working through More Cash ... More Joy ....

Releasing in this way will also allow you to work step-by-step to build and grow the lifestyle business of your dreams. You should complete

a lesson, submit your worksheet, get feedback, make any changes and then the next lesson will be ready.

Both BONUS courses - Smart Start and From Facebook to Sales are also in Pre-launch so will also be released in the same way - gradually.

---

# Hi and welcome to More Cash ... More Joy ...

## Your Lifestyle Business Builder Program

**here's how it works...**

This is not an online course where we sign you up and leave you to it - sink or swim. It's online coaching! We're here with you all the way. We're here to

guide you, give you advice, feedback, support and answer your questions. We'll hold your hand as much as you want, or need, your hand held.

## **an important disclaimer**

We don't believe in "get rich" programs – only in hard work, adding value, building an awesome business and serving others with excellence! Our programs are intended to help you share your message with a wider audience and to make a difference in the world while growing your own business. We do not make any guarantees about your ability to get results or earn any money with our ideas, information, tools or strategies. We don't know you and, besides, your results in life are up to you. Agreed? We just want to help by giving great content, direction and strategies that move you forward. Use caution and seek the advice of qualified professionals when attempting any lifestyle change or business or financial endeavor. Check with your accountant, lawyer or professional advisor, before acting on this or any information.

## **about you**

Any questions you answer about you and your business will help us get some background information and identify where we can be of more help in this business building coaching program. For you to get the most of the online

coaching series, please complete the questions honestly and clearly. We would also like to take this opportunity to remind you that any information you share with us is bound by our contract of confidentiality with you.

## **workbook pages**

Some lesson topics will have an associated workbook page (form) for you to complete. Your workbook DOESN'T need to be perfect, this is something you'll come back to and alter and update as this program progresses. For each session just get something in there now! At the end of each group of lesson topics you will also have an action plan form to complete.

## **action plans**

These should summarise the specific steps you are going to take, tasks you need to complete and when you're going to complete them. These action plans are also called "accountability forms" as we'll be checking in with you from time-to-time to see how you are going.

*> Note: If the forms or downloads do not work for you, check that you don't have a pop-up blocker on your browser.*

## **our time**

We will dedicate time each week to supporting you through this program. However, it may take up to 48 hours to respond to your messages and requests. Also be aware that we are working on "down under" time as we're based in Australia. So while you're working we may very well be sleeping! Be patient, we will be in touch as soon as we can.

## **connect**

General questions, comments and anything you want to share can be posted in the forum below. But keep in mind that these are not private and can be seen by anyone participating in the program. Posting and commenting there is a great way to interact with others in this program.

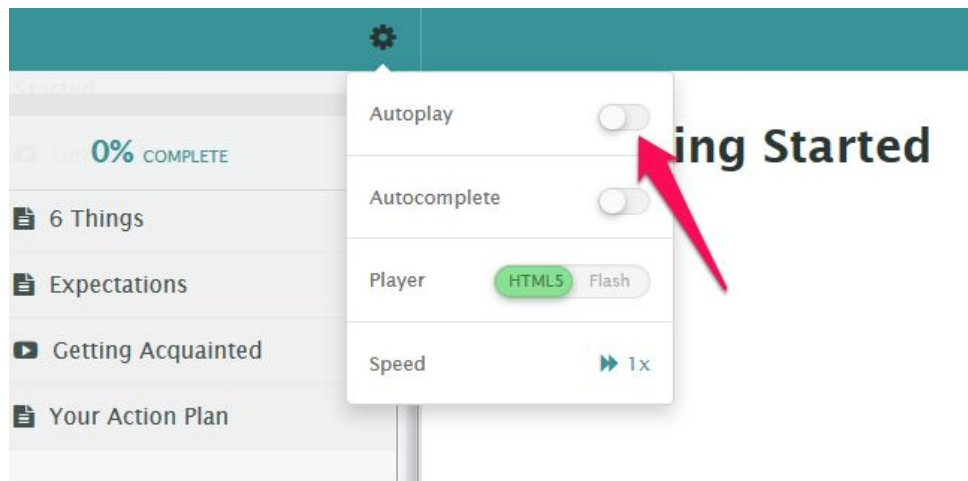

*> Note: if you have not used Disqus before you will need to register when you first comment. This is a fast and simple process and only needs to be done once.*

If your questions or comments are personal or confidential you would be best to send them via the "Contact Us" link so they come directly to me.

Alternatively, use your workbook pages in the Lessons.

## a quick note about videos

If you don't wish the videos to autoplay you can change your settings in the top left hand corner of any lesson page:
