

# Patchwork Soup

## Welcome!

*I'm so glad you are taking the Patchwork Soup Course.*

This course is based on one of my favorite techniques. It is a fun, stress-free technique for making yardage out of your scrap fabrics. Once you have created fabric, you can use it for any project you want. From zippered bags to decorative pillows to journal covers, you'll sew unique, one-of-a kind projects that no one else has.

In addition to 9 video lessons with lifetime access, you have 5 handouts to download. Each handout is posted with a specific lesson, and you'll be able to download it from there. Here's the list:

- Bonus Project – Lesson 6
- Tips for Stitching on Paper – Lesson 6
- Rainbow Sampler – Lesson 7
- Creativity Journal Cover – Lesson 8
- Jumbo Mug Rug – Lesson 9
