Woohoo!
Cue the Confetti

Welcome to my watercolor class.

I'm so excited you have decided to join me on our journey through the world of watercolor. I love teaching art. Painting and drawing are so much fun. I want everyone to experience the excitement of creating a piece of art.

It is incredibly fulfilling when a student says, "This is the best art class I have ever been in!" I also love it when one of my students runs up to me at an art store and gives me a big hug, then ask me for advice on paints and brushes." –Karen

Harmony in life is something different for everyone. For one person, it is very spiritual. For another, it can be that feeling you get when running, and your second wind kicks into gear. For me it is both and creating art.

There are too many noises, too many choices, and way too many voices every day all day long?

How do you find harmony, balance, and peace? I paint, write in my journal, draw and color. Come join me on my journey.

What about you, what is Harmony in Life to you?

Come join me on my journey to find more balance in this crazy world.

Extremely Grateful!
