Yesterday BSR Sir shared the right ways to write the goals. Today BSR Sir continued from there and shared some more information about writing goals.

The goals should be written on Yellow colored paper with Red colored pen/sketch.

The goals should be written inside an Oval drawn on the paper.

Use 1 paper for one goal/desire.

Now draw arrows outside the oval, arrows should point inwards.

Draw a religious symbol you believe in to make it more effective.

To make it more effective, make three copies of this sheet and stick one copy in your bedroom so that when you wake up, this is the first thing you see. Keep other copy at the place of your worship. The third copy is to be burnt, and then cooled down in water and then pour that water into the plants at your home or your surroundings. BSR Sir also shared the scientific and religious logic behind this step.

You can also spray perfume on it to make it more effective

BSR Sir also shared the reason behind every step of this activity.

BSR Sir shared his personal example of how he wrote down some goals in the year 2011 and forgot about that paper, years later when he got his hands on that paper coincidentally, he was surprised to see all the goals that he had once written on that paper had been fulfilled without any conscious effort because he had even forgotten about it.
