CURRENTLY IN A 1 YEAR

New beginnings! You're planting seeds in 2023, with all the drive and enthusiasm for initiating that the 1 year is famous for creating. Be purposeful with the goals you set and the projects, relationships, and commitments you begin this year, as they'll be the foundation for your life and work through 2031!

CURRENTLY IN A 2 YEAR

A 2 year is all about nurturing the seeds you planted last year. My mother called this the "abort or knit booties" year because you're either digging up in doubt what you planted in faith... or you're doing the work to help those little seeds grow strong! In this emotional year, if you can stay in receiving mode, you'll activate some beautiful things!

CURRENTLY IN A 3 YEAR

The seeds you planted in your 1 year (2021) are now manifesting. You're in a creative, collaborative, social year, so be sure to enjoy the expression of those goals shining through. Celebrate this lovely milestone along the early part of this 9-year cycle!

YOUR PERSONAL YEAR

CURRENTLY IN A 4 YEAR

This is a year of rolling up your sleeves and putting in the work. Basically, if there's big effort involved to support the seeds you planted in your 1 year (2020), this is when you'll really be able to do it. Don't stress about this! You'll really have the energy for improved focus, drive, and making stuff happen in a 4 year!

CURRENTLY IN A 5 YEAR

Play! Freedom! Rebellion! Adventure! Joy-seeking! Also friskiness, writing/creating, and a bit of risk-taking swirl around you in a 5 year. Expect a burst of creative energy while you do some reckless celebrating for the seeds you planted in your 1 year (2019). This is the midpoint of your 9-year cycle. You deserve some energetic downtime.

CURRENTLY IN A 6 YEAR

There's a focus on repair, domesticity, and intimate/family relationships this year. There's clean-up after last year's partying. You'll experience healing on several levels while you take on some renovations and community-building around the seeds you planted in your 1 year (2018).

YOUR PERSONAL YEAR

CURRENTLY IN A 7 YEAR

It's time for inner work, turning deep within, building courage, stitching together who you want to be in the world. This can be a lonely time if you use this energy to isolate as you get clear and connected with your spiritual source. Because next year you'll spread your wings around the seeds you planted in your 1 year (2017), the processing you do to have the healthiest chrysalis experience possible in a 7 year is important!

CURRENTLY IN AN 8 YEAR

This is a year of power, revealing the inner work you've been doing as you step into your potential to be fully seen. This is a great year for investing in yourself, basking in the manifestation of all you've created, and taking responsibility for anything that isn't working. Think back to those seeds from 2016 as you emerge, you glorious butterfly!

CURRENTLY IN A 9 YEAR

In a 9 year, you're closing up the current segment, which came from seeds you planted in 2015. It's time to let things go that needn't come with you into your next 9-year cycle, so look for closure that's right on time. Declutter, end relationships (but don't ghost 'em), clarify, and reset. Pruning is required for new growth to come.
