

NEW
Traveller Wear Protector

Exclusively from Southeast Sailboats these new durable injection moulded protection pads made for us by Allen will prevent your deck from being worn away. Class legal and available for immediate shipping.

8:1 Downhaul System

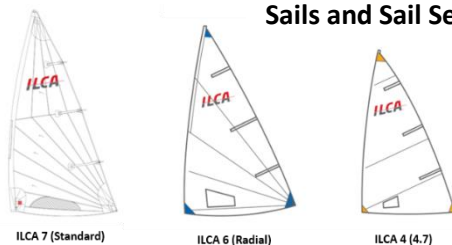

Our ground breaking and popular 8:1 downhaul – essential if you are using the MkII standard sail, and being adopted more and more by Radial and 4.7 sailors.

Only £53.50 for a complete ready to fit Allen 30mm system, or £80.50 for the Harken 29mm version.

A "game changer for the MkII sail" – Michael Beckett GBR Team sailor

Sails and Sail Service

The new ILCA branded class legal sails are in stock. Plus, our sail service – we can fit your numbers/country code for you – with a full sign off sheet so you know we have put them on correctly! Free UPS shipping in Europe. Contact us for great tax free prices for shipping worldwide!

Improved Kicker /Vang Fairlead

It may look the same but..

...following Southeast Sailboats comments regarding excessive fairlead wear when using Technora, Harken are now producing the fairlead from a harder material which should make it more resilient to initial wear, as well as reducing wear once the shiny surface layer is worn away. Class legal and in stock!

Advanced Kicker/Vang Solutions

Free running high load blocks from Harken, Allen and Ronstan that make it easier to pull the kicker/vang on. Visit the website for more details.

International Shipping

We have delivered our systems to over 40 countries. International shipping options are now listed in the main menu. Plus tax free sales outside UK/EU

Double Puller Outhaul Elastic/Inhaul Bungee

Our unique implementation of the 'double puller' outhaul elastic/inhaul bungee uses an elastic with stitched/whipped loops at each end, and a toggle/dog bone that is spliced into the primary line assembly just behind the floating block. This provides a very easy way of rigging this type of outhaul elastic, avoiding having to tie the elastic onto the boom cleat and outhaul block when rigging. Our outhaul systems and primary lines are available with this toggle as an option.

Just some of what we offer.....
