

## Before Recordings

In order for Steve to assess you and send your diploma, please record these three scripts before you start the course. You can record on your mobile phone or on your computer using Audacity. You need to keep these recordings separate from all other recordings you make throughout the course. When you've practised for three weeks, you have to record these scripts again. Please make sure you name your recordings.

### 'Chocolate Heaven'

Have you ever tasted paradise?

Have you ever tasted a chocolate so delicious you fall in love?

Excite your palate with the smooth creamy chocolate from Chocolate Heaven.

Chocolate made for chocolate lovers.

### 'Waste disposal'

The restricted size of the operating area, the intensive heavy plant activity and the sheer volume of waste being delivered or collected, combine to increase the risk of accident or injury. The method of operation at the site means that the vehicles loading and unloading are working on a location that is directly alongside the commercial waste disposal areas and adjacent to the public tipping zone.

### 'The Polar Express'

We climbed mountains so high it seemed as if we would scrape the moon. But the Polar Express never slowed down. Faster and faster we ran along, rolling over peaks and through valleys like a car on a roller coaster and with a screech of metal we rounded the final corner and found ourselves gliding gently into a moonlit valley.
