### Give to Receive, Cause and Effect. The Core Principle:

BSR welcomes everyone on day 11, 50 percent journey completed today. Life is changing with the learnings from The Magic Of Thinking Rich. We have learnt that our Subconscious Mind develops a habit, a behaviour and we will see the practical explanation of how to leave or adapt any habit.

**The powerful session starts with a powerful round of celebration on the song "Soch Se Hum Taqdeer Badal Den..." BSR asks to give "High-five", "Jaadu ki Jhappi" to people around and say "You Rock".**

BSR talks about people who are afraid of taking risks and are confused in making decisions in life. These people refrain from achieving success. Any decision must be taken within 24 hours of thought that arises in mind.

It takes a decade to create a foundation of an extraordinary success. BSR Sir gives an example of Chinese bamboo. Initial years of its plantation, for 4-5 years there is invisible growth in the roots underground which is the foundation being created for the future extraordinary growth above ground level. It requires all sorts of nurturing of its soil, water, sunlight etc and once there is a breakthrough observed in its shoot then after nothing can stop the bamboo to grow exponentially. Within one year it becomes 50 to 70 feet tall.

Focus on your Goal for 10 yrs. Until the age of 35, generally experiments are done to create a foundation, after 35 the stability is seen in maximum people. 40 is the average right age to get stability and after that success is achieved. This is eye opening. Success takes time, patience of 15 to 20 yrs for fruitful results for future. But youngsters of today are anxious for fast money and growth. Learn from the mistakes and prepare for 10 years to achieve stability and a successful career. Expectations must be a decade till then focus and execute. When you focus on creating a great foundation, success is also great.

Anxiety or desperation in mind creates negativity, this creates a distance or gap between you and your goals.

### **BSR Sir explains the 4 Pillars required for LOA to work with examples from the Mahabharata.**

The first pillar is “**Turn your Desire into a Burning Desire**”. Do not confuse Desperation with the Burning Desire. Desperation for the result is the feeling of doubt. Arjun had a Burning Desire while Duryodhan had Desperation. Arjun was focused, peaceful and positive towards his goal. He gave energy in creating hope. Whereas Duryodhan was desperate which is a negative feeling hence he focused and put his energy in creating doubt.

BSR Sir gave a powerful Mantra that he learnt in happy moments shivir: When there is no way, **"LET HIM SEE"**

Understanding through an example of a mobile phone and its sim card: The owner of the mobile can dial any number and it gets connected to that number. Suppose If the

mobile becomes egoistic then imagine the scenario thereafter. But mobile is just an instrument. It is the owner of the mobile that needs to be worried about any positive or negative message or a call.

Similarly our body is an instrument, the Subconscious Mind is the sim card. SCM is the Inner power. In case of any challenge, this SCM plants the thoughts in our mind and when things get out of control use this powerful Mantra “**LET HIM SEE**”, leave the work on him (the God) but you need to put your efforts, work hard, build strategies and do your part that is in your control.

2nd Mantra: “**LOAD MAT LO**”, the things that have to happen will happen. The things that had already happened let it go, “**LOAD MAT LO**”.

**STORY 1:** Mike is an employee of Bill Gates. He is a very high performer, always staying happy and energetic. One day he was sad, he was working till late. Bill Gates saw him like this for the first time hence he offered him a help, lift to drop him at his home. Mike agreed and both reached his place where he invited Bill inside his home. They entered inside, there was a tree in front of his home. Mike holds the tree and transforms into an energetic person instantaneously from a very sad one. He goes inside and greets wife and children with happiness.

Bill asks about the transformation that he saw with Mike. He answered that the tree is the special “Problem Tree”, when something was out of his control, he transferred his worries to that problem tree and said “**LET HIM SEE**”. As those problems did not belong to his home, he did not carry them inside.

We take all problems home. Almost everybody and the negative energy is created on both sides. In such cases, using the powerful mantra “**LET HIM SEE**” helps to stay positive.

**Important Announcements: BSR Sir talks about morning free meditation that can be joined using page link <https://www.askbsr.com/live>**

**Story 2:** Rajesh was a very nice person who died one day. Yamraj took him with him but got confused with Heaven or Hell as Rajesh had done good and bad deeds equally in life. He called a meeting with Chitragupt and all others. He asked Rajesh where he wanted to go. He decided to experience both hell and heaven before choosing one. They first took the lift to hell. It was a beautiful place, he wanted to live here before he could finish deciding. He felt hungry and went to the dining hall. He was surprised to see a variety of delicious looking food but still people screaming, fighting, beating each

other. He saw the sign board on the wall that said **“USE YOUR HANDS TO EAT”**. He could then notice their elbow which was straight. No bending movement. That's the reason they could not enjoy the food. Rajesh got scared and decided to go to Heaven.

Now they headed towards Heaven, he observed the same grand welcome there as well. He wanted to reach the dining hall. He was again surprised to see the same sign board as in Hell. **“USE YOUR HANDS TO EAT”**. Same situation but everyone celebrated in Heaven because they could eat food in spite of no bending movement in their elbows. It was because they were feeding each other.

**Universe has the power to give you everything.** In Heaven people's mentality was to give, whereas in hell it was to get. Giving or getting makes a huge difference. Are we giving the best or are we trying to get the best. This has to be understood.

The core principle behind LOA is **GIVE TO RECEIVE:**

BSR Sir explains how the **LOA works on giving.** That's why we see that donations are given importance in every religion. 1% to 10% of one's earnings must be donated to receive more from the Universe. When you donate and help the needy, you get back manifolded.

**Donate >>Ask >> Believe >> Receive.**

**GIVE TO RECEIVE.** Generate this power, the confidence to donate of your choice. It also gives the Confidence to earn, donate blindly and see the results.
