

MURMUR IDENTIFICATION

[Systolic]

→ Mr Peyton Manning as MVP...

- ◆ Mr = Mitral Regurgitation
- ◆ Peyton Manning = Physiologic Murmur
- ◆ As = Aortic Stenosis
- ◆ MVP = Mitral Valve Prolapse

[Diastolic]

→ has dangerous ARMS!

- ◆ AR = Aortic Regurgitation
- ◆ MS = Mitral Stenosis

Additional things to remember:

- HARSH → REGURG
- SOFT → STENOSIS
- Fixed Split → Septal Defect
- S split → Normal during inspiration
- S₂ → Normal ONLY during inspiration
- Only systolic radiate
- Mid systolic click → MVP !!
- Questions:
 - Who's affected by S₃?
 - Who's affected by S₄?

My notes:
