

EKG Quiz

1. Name the strip

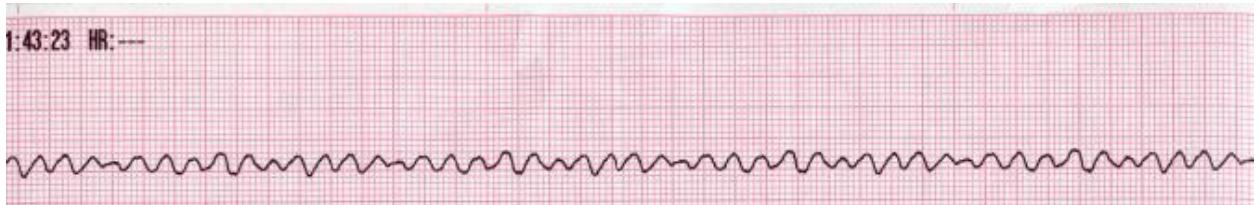

- a. Tachycardia
- b. Bradycardia
- c. Sinus rhythm
- d. Bundle branch block

2. Name the strip

- a. Ventricular tachycardia
- b. Ventricular fibrillation
- c. Atrial fibrillation
- d. Non-STEMI

3. Name the strip

- a. Tachycardia
- b. V tach
- c. V fib
- d. Atrial fib

4. Name the strip

- a. Sinus rhythm
- b. Sinus tachycardia
- c. Sinus bradycardia
- d. Sinus arrhythmia

5. The “T” wave represents:

- a. Atrial depolarization
- b. Ventricular depolarization
- c. Atrial repolarization
- d. Ventricular repolarization

6. Sinus tachycardia is:

- a. A rate <100
- b. A rate <60
- c. A rate >100
- d. A rate > 60

7. Which rhythm is characterized as a “saw-tooth pattern” P waves?

- a. Atrial flutter
- b. Ventricular tachycardia
- c. Ventricular flutter
- d. STEMI

8. Which rhythm is characterized by having a regular, prolonged PR interval?

- a. Atrial flutter
- b. Atrial fibrillation
- c. Heart block
- d. Ventricular tachycardia

9. What does an ST elevation indicate?

- a. Myocardial infarction
- b. Technical problems with EKG leads
- c. Blockage of the major heart veins
- d. Increased muscle contractility

10. A non-stemi is:

- a. ST depression
- b. ST elevation

CORRECT ANSWERS

1. B
2. A
3. C
4. A
5. D
6. C
7. A
8. C
9. A
10. A
