Run your calendar project smoothly by selecting a 3 week timeframe to sell ads, collect listings and submit your order.

EXAMPLE

August 3, 2020	Begin Sales
August 17, 2020	End sales
August 24, 2020	EZO calendar submission by week 3

DECIDE YOUR GOAL

Cost and Profit Example:

To meet a \$5,000 profit goal on a 200 calendar order, you should sell 36 ads for \$200.00 each – or less ads at a higher rate without selling a single calendar.

Here is the breakdown:

- Your cost of 200 calendars is \$854.00 (\$4.27 each)
- Your cost of 36 advertising spaces including color and logo is \$1305.00 (\$36.25 each space)
- Your income generated from selling the 36 ads at \$200.00 each is \$7200.00

Expenses of \$854.00 + 1305 = \$2159.00
Ad income = \$7200

This leaves a profit of \$5041

Suggested Advertiser rate breakdown:

365 Days of advertising based on a quantity of 200 calendars

- Ads @ \$200.00 per block space = .55 cents a day / \$16.99 cost to your advertiser per month.
- Ads @ \$500.00 per block space = \$1.37 per day / \$42.47 cost to your advertiser per month.

*Make additional revenue by selling your calendars!
Suggested calendar sale rate = \$10.00 per calendar
