## Design Beautiful Pages

### Lesson 04-01: Beautifully Blended Creative Team Inspiration

Here's how our Creative Team put together their double spread pages!

#### Fully Blended Pages

Simplicity can be beautiful, and this page by Danica is beautifully simple. There's no ambiguity. You know immediately that this spread is all about a travel adventure! She placed a stroke on both pages but used each one for a different purpose. It's a wonderful travel spread!

A double spread is perfect for an uneven grid, so let's take a look at several uneven grid pages. This page by Penny tells about life at a college. I love the simple blended background she used. All the focus is on the fun photos and a few elements add a touch of whimsy.

Kit: Encouragement by CottageArts

Extras: Paul Smith's College Logo from web

Fonts: Syabab & Harlem script

Vynette used her uneven grid double spread to feature wildlife. I especially like her title where she combines two contrasting fonts and a cluster to make the title look extra special.

Elements and paint from: Everyday Stories by Syndee Rogers Nuckles

Extras: papers from Spring has Sprung by Mommyish (recolored), and background wood paper from Rosehill Cottage by Cindy Rohrbough

Font: Beanpole

Donna's page about Fall Camp conjures up the warm feeling of sunsets and outdoor fire pits. Her various papers add to the grid-like pattern and complement each other and the photos.

Fonts: Courier, Buttercup Sample

Joyce put a photo in the background of her double spread. She turned it into a soft black and white and added some blended writing on both sides for added interest. The stair-step words make a fun title, and she used brown, white, and black in her papers and elements to give almost a monochromatic feel to the page.

Paula used Designing in Thirds with her double spread which worked perfectly for her panoramic photo. In the thirds section she put a grid of matching photos, journaling, and elements—a perfect complement to her page!

This page by Lori is a wonderful line page all the way across both pages! Lori chose a very pretty color combo for her papers and elements. It all works together to engage the viewer as you tell the story of an event or vacation.

A double spread can turn into an artistic experience by using masks and blending like Kathy did on her double page.

Terri also used masking and blending to create an artistic feel to her page and bring out the beauty of the season.

Extras: Anna Aspnes MultiLayeredFotoBlendz7, Multimedia Accordion Frame, multiple brushes--paints, stains, textures

Fonts: Copse Regular, Alex Brush Regular

And finally, this page by Deborah combines masking and a fanciful grid combo to draw you in to her sunset at the beach photos. I like the combination of blue and sunset orange in her colors and the fun elements and word art!
